SOAP FACTORY REPORT.

Soap factory report starting from February to May 2014. On February the soap sales cost 4740 vt @ 20 vt each. The bottle of oil cost 1400 vt. There are 237 soap sales and 7 plastic bottles sold so it cost up to 6140 vt.

The cash payment are as follows. Oil cost 2600vt for 13 litres. Wages, we work one day in a week, the cost is 3000vt. The poudary has to be clean so the grass cutter cost 2500vt. The total cost payment is 7600 vt. It means that we have an outstanding of 1460 vt.

March, cash receipt, there are 164 soap sales @ 20 vt. It cost 3250 vt. The plastic oil sold @ 200vt for 18 plastic bottle. It cost 3600vt so I deposited 2000vt at the NBV so I left with 4880vt. The cash payment, of the Oil bought of 15 liters @ 200vt cost 3000vt. Wages cost 2000vt. The boundary cost 1500vt plus the outstanding of 1460vt total up to 7960vt. The outstanding for march is total up to 7960 vt. The outstanding for march is 1080vt.

April I paid 80 soap @ 20vt. It cost 1600vt so I paid 10 plastics bottles Oil @ 200vt and it cost 2000vt. Total cost for sales is 3600vt. The payment for oil is 7800vt for 39 litres. The wages 4500vt and small labour for two men digging the toilet cost 2000vt and the total cost is 14300vt. On April I withdrew from the NBV 11780vt plus 1080vt total up to 15380vt.

In May I sold 195 soap @ 30vt and 37 soap @ 20vt costing 6590vt. The plastic oil sold was 11 bottles @ 200vt cost up to 2200vt. 1000vt was deposited at NBV. Remaining vt left was 8790vt.

Cash payment I bought 825 liters of Oil, grass cutter with 2000vt for cleaning the poudary, 5 refil for 600vt, wages for 7000vt and labour for two men working on the toilet cost 1400vt. So the Total cost was 12650vt. My outstanding is 3860vt. I have to solve the outstanding for june when I receive any money again by selling the soap. Now im sending about 595 soap to sell in New Zealand. By Jenny Keith.

1: **Introduction:** The name of the building Workshop is Uluveu BUILDERS WORKSHOP.

Since 2008 Uluveu Builders Workshop was established in Uluveu Island, on Asivan Station, Pescarus Village.

The 8 villages were consist of the Uluveu communities, they are-

1. Okai
2. Nerieniemb
3. Ayiomb
4. Ravuhen
5. Avock
6. Pelongk
7. Lutes
8. Pescarus

They are entitled to the ULUVEU BUILDER'S WORKSHOP.

2: Aim of the Project

_ - To develop the knowledge of the trained graduates' students from URTC and the local build up their abilities of skills, such as carpentry wood work etc. The workshop will generate an income to help the 8 communities to be sustainable in the future.

3. Workshop Operation

Since the new Management started at the workshop, the operation of the workshop is running well, and on the way we came up successfully with the operation and the month of July to August the workshop closed down, just because of the disputes between our families, but anywhere, with that Council of Chiefs our problem was solved and now the workshop is continually operating again.
